

Appl. No. 09/912,525
Amdt. Dated February 7, 2005
Reply to Office action of November 8, 2004
Attorney Docket No. P12984-US1
EUS/J/P/05-3028

Amendments to the Specification:

Please replace the paragraph beginning at page 1, line 6, with the following rewritten paragraph:

~~--The present invention relates to a method of establishing access from a terminal to a server of the kind set forth in the preamble of claim 1. The present invention relates further to a terminal for use with the method of the kind set forth in claim 11 and to a server for use with the method of the kind set forth in claim 12. The present invention also relates to a system for establishing access to a server of the kind set forth in claim 13. --~~

Please replace the paragraphs beginning at page 2, line 17, with the following rewritten paragraph:

~~--It is an the object of the invention to provide a method and system for allowing faster access between a first terminal and a server and a first terminal and a second terminal by sending of the kind referred to above, which allows faster access to a server. This object is achieved by the characterising features of claim 1. By sending the data for the server before or parallel with the authentication, so that the server can be prepared for access and give access to the server and the second terminal during the authentication procedure. --~~

Please delete the paragraph beginning at page 2, line 23:

~~It is another object of the invention to provide a terminal of the kind referred to above, which allows faster access to a server. This object is achieved by the characterising features of claim 11. By sending the authentication data before or parallel with the data for the server, the server can be prepared for access and give access during the authentication procedure.~~

Amdt. Dated February 7, 2005
Reply to Office action of November 8, 2004
Attorney Docket No. P12984-US1
EUS/J/P/05-3026

Please delete the paragraph beginning at page 2, line 29:

~~It is another object of the invention to provide a server of the kind referred to above, which allows faster access to a server. This object is achieved by the characterising features of claim 12. By prompting for the authentication data before or parallel with the data for the server, the server can be prepared for access and give access during the authentication procedure.~~

Please delete the paragraph beginning at page 3, line 1:

~~It is yet another object of the invention to provide a system comprising a terminal and a server of the kind referred to above, which allows faster access to a server. This object is achieved by the characterising features of claim 13. By sending data for the server before or parallel with the authentication data, the server can be prepared for access and give access during the authentication procedure.~~
